Mr. G. A. Schmelz Furchases the Simpson Hospital Site-

The activity in real estate in Hamp-ton, Phoebus and vicinity is unparal-leid at this season of the year, and in-dicates a faith in the future of the two towns that cannot be gainsaid. Many small deals have been reported, but yesterday the consummation of a large one became public, in which Mr. George one became public, in which Mr. George A. Schmelz, who has been prominent in real estate investments lately, is the purchaser.

one became public, in which Mr. George A. Schmelz, who has been prominent in real estate investments lately, is the purchaser.

The deal in question is the sale by the owners, Mr. Hunter Booker, Mrs. Mary B. Watkins and Mr. Edward Crooke, the last named of Baltimore, of the valuable tract of land now occupied on lease by the United States government as a military general hospital. Mr. Schmelz paid for the property the sum of \$15.500, which will be divided among the former owners in the propertion of their interests therein.

The property consists of thirty-four and one-haif acres of very desirable land located on the shore of, Mill Crock and directly on the line of the Buckroe branch of the Newport News and Old Point Railway and Electric Company, about half a mile from the main line of that road and the Chesapeack & Ohio railroad. Last summer, the government desiring to loate a military general hospital in this vicinity, chose this site and thereupon leased the tract, immediately beginning the crection of the necessary buildings thereon, Ever since early in September the new buildings have been occupied. The property was leased for one-year with the privilege of two additional years if desired. It is expected that the government will have need of the hospital for two years to some, and will probably permanently locate a bospital thereon.

Mr. Schmelz's purchase is regarded by real estate operators as a safe and wiseon, even if the government does not buy the property. If the tract were divided into tots and sold there is little doubt that the property would pay a handsome profit on the amount invested.

Negotiations are now in progress for the sale of several valuable pieces of teatry, but, until the sale is fully consummated, nothing is made public.

THE FRANCHISE AMENDED.

Peninsula Company Changes Its Route Through the Town.
The Town Council met last night pursann to adjournment to act on the application of the Peninsula Railway Company, for permission to change the route of its line. There were present Fresident J. Barron Hope, Jr., Messrs, Cunningham, Schermerhorn, Plecker, Whiting and Bryant, Town Attorney Cunming, and Messrs, Causey and Livezey, representing the railway company.

The report of the Ordinance Committee, recommending the adoption of the amended sections of the franchise asked by the company, was, after brief discussion, adopted. A number of the provisions of the new sections are as fathows:

sked by the company, was, after brief discussion, adopted. A number of the provisions of the new sections are as sollows:

Section 1 as amended, provides that the route of the railway line shall be as 5 follows: Entering the town limits on Lincoln street, thence by single track 5 along Lincoln street to Wine street; thence, in a southerly direction, along Wine street to Brown; thence along Prown to Locust street, and along Loter of the railway line street to Wine street; thence, in a southerly direction, along Wine street from the corner of Brown, northwardly, to the corporate limits.

Section 3, as amended, requires the company to restore the streets traversed to their former condition as soon as can be done, under penalties for failure to do so; also to keep the streets traversed covered with oyster shells to a uniform depth of seven inches between its rails and for a space of two feet on each side thereof. The company may be required to grade and pave such portion of said streets in such manner and with such material as the city may use in paving the remaining portion of such streets, the work to be done under the point of the Street Committee of the Council. Penalties are provided, and a provision insuring the enforcement of this requirement, in case the penalties are not effective, is provided.

Section 11 require the company to execute and deliver bond in the sum of street, between king and Wine streets, to a width of not less than thirty-six feet, sidewalks included, such widening to be on the north side of said Lincoln to Brown, to a width of not less than thirty-six feet, sidewalks included such widening to be on the north side of said Lincoln to Brown, to a width of not less than thirty-six feet, sidewalks included such widening to be on the north side of said Lincoln to Brown, to a width of not less than thirty-six feet, sidewalks included. Such widening to be on the north side of said Lincoln to Brown, to a width of not less than thirty-six feet, sidewalks included. Such widening to be on the north

such widening to be on the north side thereof.

The company also expressly agrees, before beginning the construction of its track on the causeway on Locust street, that it will grade and widen the said causeway, extending to the corporate limits, and the approach to the said causeway to the grade and width of Locust street between Brown street and the said causeway. In the event of the fallure of the company to do this the town shall have it done at the expense of the railway company.

An additional section provides for the locustification of the town for any of granting the 15 das a consequence of granting the 15 das a consequence of granting the 15 das a consequence incerely precautionary, for there is no conflict with prior franchises granted any one.

conflict with prior transmission any one.

The franchise, in its phraseology and completeness, is an admirable paper, and completely guards the town's interests in every contingency that may arise. It looks far into the future and binds the railway company to the fulfillment of all requirements.

BROOKLYN'S SHORT STAY.

Crack Cruiser Will Leave Old Point
This Morning for Cuba.
The United States armored cruiseritrooklyn, Captain Cook, arrived at Old
Point at 1139 A. M. yesterday and anchored to the east of the dock several
rods off shore. The Brooklyn, during
the recent unpleasantness, was the flagship of Commodore thow Admirad) W.
S. Schley, and played a brilliant and
tons around Santiago, bearing several
sears as an evidence of her service and
her staunchness.
The Brooklyn will sail early this
morning under orders to proceed to
Havania, Cuba, whither she goes, presumably for the moral effect of the
tiesence during the chaotic condition
preceding the complete transfer of the
island and the flaing of its permanent
tational or political status. She will
join the New York, Texas and other
warships recently dispatched thither.
There is little or no doubt that the
squadron, now widely scattered, will,
as soon as the tendezvous there. That
was the plan until the recent elutition
in Havana made is temporary abandonment necessary.

CAR AND WAGON COLLIDE,

CAR AND WAGON COLLIDE. CAR AND WAGON COLLIDE, While street car No. 15 was going eastward through the castern part of the city, it was severely shaken up by collision with a hay wagon. The monotor-man in charge attempted to pass the heavily loaded wagon on the narrow street, thinking he had room to make it and did not discover his mistake until too late to avoid damage to his ear. In the side-swipe collision that casued all but one window was shattered, making the car appear as if it had been in a rock battle or a cyclone. Fortunately there were but three passengers on the car at the time, and all three were seated on the same side, and that the safe one; otherwise some one or more would certainly have been cut by the breaking glass. The mutilated car was taken to the power house and run in for repairs.

INSPECTION AT FORT MONROE. Vesterday was a day of bustle and activity at Fort Monroe, owing to the arrival there of the inspecting officer and the preparations to meet the appropriate of the critical eye. Everything—quarters, men, guns, etc.—were spetless in their neatness and the garrison made an excellent showing. Of course, the inspecting officer did not make public the report he will make, but from remarks let fall by him, there is no doubt that he was well pleased with the showing made by the garrison and the post.

BRIEF LOCAL ITEMS

BRIEF LOCAL ITEMS.

Mr. and Mrs. Howard Watkins Saunders have returned from their weddling journey and are now at home at the Roseland Cottage. They had only gotten as far as New York when Mr. Saunders was called home on account of business.

Mr. Frank W. Phoebus went to Portsmouth yesterday to attend the marriage of Mr. Wilkie Bond and Miss Leavitt, both of that city.

Condustor Ford, of the electric railway line, who has been detained from duty from illness, is now improving. Major-General Nelson A. Miles, who, it was reported, would arrive at Old Point yesterday, did not come, and is not expected there.

The fire alarm sounded yesterday morning about 3 o'clock was a fakenlarm, presumably the prank of unknown parties. It called out the steamer, and many fremen were forcest to leave their warm beits at this unreemly hour. If they could have gotten hold of the joking individuals there would undoubtedly have been some involuntary plunge baths. And that's no Joke.
